Emotion, Sense and Creativity are the core values of the brand.

Meant to be accessible to all, from the small silver pendant on a cord to the one of a kind custom-made 18K jewels, collections are organized in two themes: Elements and Nature

Elements explore the pure geometrical shapes. A sensual and playful translation of sobriety most particularly in the «motion» pieces such as the Cosmic « Magic » Ring and its innovative patented concept where the stone moves freely with every hand movement.

The theme Nature is a tribute to the living world with universal and symbolic representations as in the « Gingko » Collection, a precious way to wear the sacred leaf of eternity.

*"All the elements are in nature and all of nature is elements"*

A French jeweler of Armenian descent, Nathalie Sévikian creates collections to tell stories.

Born in Provence, she kept this crucial link to the nature that surrounds us.

Her favorite color, blue tourmaline is an irresistible evocation of the Mediterranean azure.

An autodidact designer and a graduate from the International Institute of gemology in Antwerp, the noble art of craftsmen is part of all of her creations.

Voluble, opened to others and their culture, she conceives her jewelry as exchanges with her clients, infusing that extra piece of soul that makes them intimate objects.

Eléments: the purity of forms

A Nathalie Sevikian patent, the ring **Cosmic magic** fascinates with its perpetual motion, real evocation of the universe that surrounds us, the stone move at the slightest movement.

With its sphere freely rotating on its axis, the **Cosmic Lucky** ring is very playful (ludique), a sensual feeling to experience.

Nature: a tribute to the world

A very ancient tree full of meaning the **Ginkgo** is a lucky charm. A house specialty, the earwrap concept allows all ear pieces fans - including non-pierced ears or sensitive to clips – to wear unusual sophisticated jewels.

Ancestral symbol of fecundity and prosperity, the **Yoni** range is declined around the conch shell, also called caury. A modern talisman for her or for him, it is a best seller of the brand.

## Hair Jewels

Conceived as genuine jewels, Nathalie Sévikian « only precious for hair » combine noble metals (gold and silver), precious stones, hand crafted natural horn and rare woods.

Allies of femininity, they bring a glamorous dimension to your hair style.
